

Introduction

ABOUT US

Agromontes is a **FAMILY** company that began its activity over 40 years ago as **GROWERS**. In 2014, with the opening of our packaging warehouse, we started selling our products directly.

We offer our products throughout the year thanks to the **DIVERSIFICATION** of our crops in 4 areas with different altitudes and climatic conditions.

Our main goal at Agromontes is to promote **SUSTAINABLE** agriculture, focusing on excellence, waste reduction, and accessibility to healthy food for everyone.

We strive to be the **TRUSTED** supplier for European supermarkets in our product categories, providing tasty and healthy products.

Our mission is to feed present and future generations with the **HIGHEST QUALITY** foods, while also contributing to environmental preservation and the well-being of local communities.

We are firmly committed to **INNOVATION**, **EXCELLENCE**, and **SOCIAL RESPONSIBILITY**, and we work tirelessly to make the world a healthier and more sustainable place through our passion for agriculture.

SEEDLESS WATERMELON												

1. Control and Security

In the seedbed, we start with the base of our crops, ensuring greater control and security.

2. Sustainability in Action

We use our farms waste to fertilize our fields and promote the use of renewable energy and biodegradable materials.

3. Crop Diversity

We offer three types of crops: mixed, hydroponic, and conventional. This allows us to adapt to changing market needs and satisfy your demands.

4. Total Dedication

We closely monitor the growth of our plants. Our commitment to quality is reflected in every step of the process.

5. Harvesting

We harvest our crops at the perfect moment to ensure maximum freshness and the best flavor.

6. Quality in Every Detail

We sort and package our products with the ultimate attention to detail.

7. Marketing

We make available to you products of the highest quality.

8. Efficient Distribution

We have a modern fleet of refrigerated trucks that allows us to transport our products.

9. Full Optimisation

To ensure the maximum utilization of our crops, we assign the products that don't meet marketing standards to animal feed.

OUR CLIENTS

Among our clients are many of the leading supermarket chains in the European continent

QUALITY GUARANTEE

Good growing practices

Good practices of Quality and safety food

Good labor and social practices

ENVIROMENTAL COMMITMENT

Renewable Energy

We invest in renewable energies in our handling warehouse and the irrigation systems on our farms.

Collection and Reuse of Drainage

We collect and reuse drainage bags from hydroponic crops.

Carbon Footprint

We are implementing the carbon footprint.

Irrigation/Fertilizer Optimization

Optimization through a sensor system and data logging.

Field Packaging

We have increased field production, reducing energy consumption and waste.

Packaging Certification

All our cardboard packaging is FSC certified
